Minor Programmes

(a) A Minor programme is a coherent course of study providing significant depth in a certain area outside that of the Major, within or outside the student’s department.

(b) The modular credit (MC) requirement for a Minor programme should be at least 24MCs, of which up to 8MCs may be used to meet the requirements for both the Minor and a Major or another Minor subject to the agreement of the particular department(s), faculty/faculties or programme(s) hosting the Minor.

(c) In the case of a Minor programme co-hosted by two departments, at least 12 MCs must be from outside the student’s Major department and in the case of a Minor programme hosted by one department, at least 16 MCs must be from outside the student’s Major department.

(d) The MCs under the Unrestricted Elective module requirements can be used to satisfy the Minor programme requirements.

(e) The MCs under the Breadth requirements may be used to satisfy the Minor programme requirements.

(f) GEMs may not be used to satisfy the Minor requirements except where the GEM module(s) is/are within the list of module(s) approved for the Minor.

(g) Modules counted towards fulfillment of the Minor requirements must be letter graded. A module taken on Satisfactory/Unsatisfactory basis cannot be used to satisfy the Minor requirements.

(h) The CAP score for modules classified within the Minor programme(s) will be counted towards degree classification.

(i) The Minor programme(s) will be reflected in the student’s transcript.

Please refer to the host Faculty/School/Department websites for details of other Minors that are offered within the University.
